

Manage to Lead Immersion Program

Fact Sheet

WHO:

MtL is for organization, unit, and function leaders and their teams who seek to access and prepare to apply MtL tools, methods, and principles to architect, build, run, and change their organization.

WHY:

Your Case IS the Course:

MtL is a shared experience for leader and team to work ON, not just IN, their business to rigorously describe their current and next states, and to conceive, launch, and guide initiatives to realize targeted benefits.

Real Time Feedback:

Asynchronous access to content and practice cases with focusing questions that stimulate and reinforce understanding and application. Live Session role plays provide feedback on case applications from teammates, other participants, outside reviewers, and instructors.

Breeds Independence:

Leaders learn to apply tools and methods that make it possible for them to do what is disarmingly simple to understand and otherwise incredibly hard to implement.

Endless Learning:

Program alums join a Learning Community that convenes live semi-annually online, where new system tools are introduced and progress with case application and lessons learned are shared.

WHAT:

A path to lead operations and make planned change, delivered in ten-modules, each with topic content accessed asynchronously and a two-hour live session optimized for delivery online or in-room, to cohorts of 3 to 7 teams of 3 to 7 members.

HOW:

Ten topic content modules accessible asynchronously, 24/7, on a university learning system, each supported by two-hour, interactive in-room or online Live Sessions.

PRICE:

The price for a team of 5 executives to participate in the MtL program is \$30,000, which includes an IntelliVen-provided Principal Consultant.

Reduced fees are available for teams that provide their own Principal Consultants and for smaller companies and nonprofits.
