

# How the U.S. Federal Government is Organized

- **Over a thousand “budget units”**
- Nearly 3 million government workers
- The US federal government is the single largest purchaser in the world
  - \$530 billion procurement spend annually
  - \$600 billion granted annually
  - \$350 billion moved between agencies annually

# Example: Department of Homeland Security (DHS)

- Each department houses dozens of “budget units”
- In addition to expanding at each directorate, DHS has solicited a true enterprise-wide solution; PRISM is in all bids

Annual Budget	➔	\$6.7B	\$11.0B	\$2.7B	\$5.4B	\$1.4B	\$5.7B	\$9.3B
---------------	---	--------	---------	--------	--------	--------	--------	--------

*The Department of Homeland Security alone represents >\$20M annual opportunity for CompuSearch*

# Simplified view of how things happened in the US federal government.
